
Central Vacuum System

The proven lifetime
cleaning solution for
modern buildings

Green Building Friendly
Good Indoor Air Quality
Silent
Convenient & Easy
Improves Working Environment

Central Vacuum System

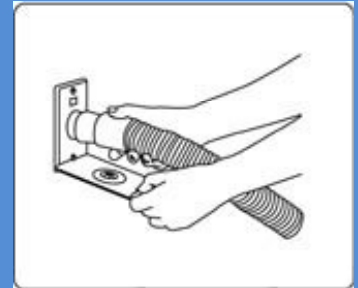

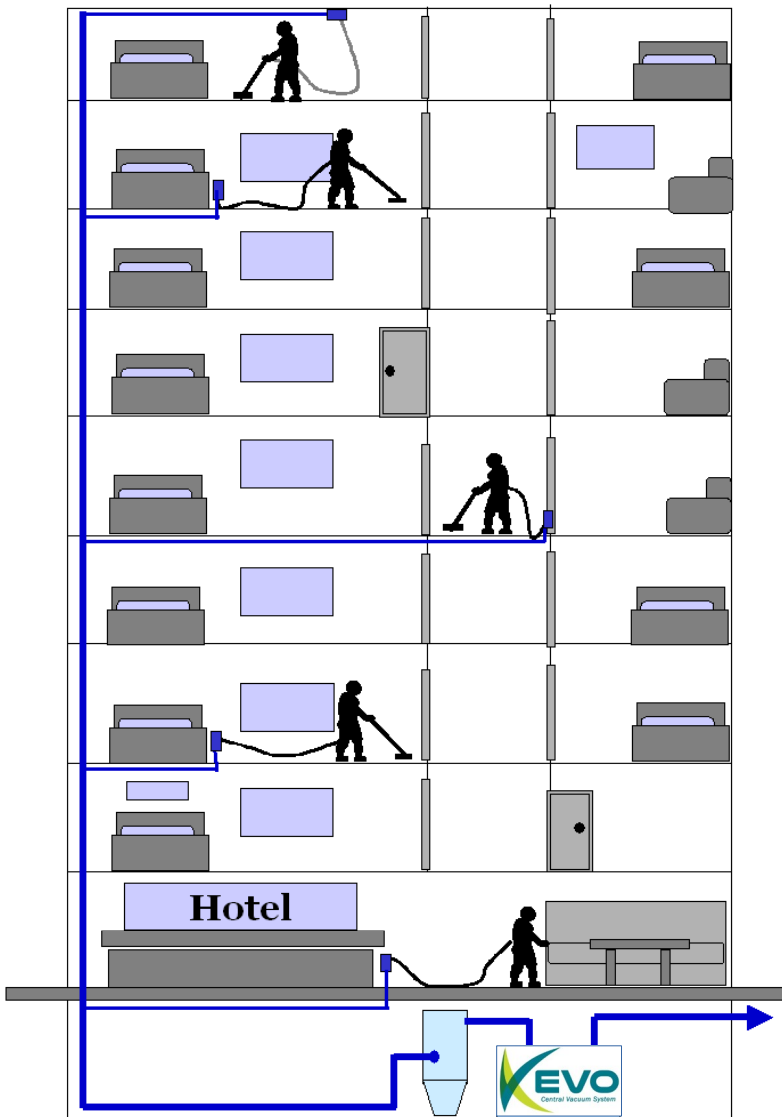

CLEANING is essential for any building, both for the commercial value and for the tenants. While there are many cleaning technology available, there is NO system that will effectively get rid of the dust and dirt. Central Vacuum Systems have been used in many smart green buildings whereby it ensures 100% no re-circulation of the dust, dirt AND smell back into the working environment.

Central Vacuum System

THE SYSTEM FLOW – a truly intelligent system

Just plug the hose end into any vacuum inlet

Vacuum Plant in Basement starts immediately - Automatic

Dust is conveyed through the pipe network to the Main Collector

Hygienic, quiet and powerful cleaning

External exhaust guarantees **100%** removal of particles not trapped by the filter system

Central Vacuum System

THE MAIN COMPONENTS

Vacuum Inlet Valves– comes in standard white or multiple colours for the client to choose

CENTRAL VACUUM PLANT – Various sizes according to project and design

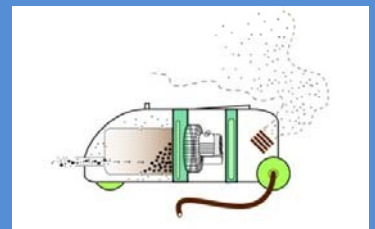

YOUR HEADACHES...
...OUR SOLUTION

PORTABLE VACUUM – Productivity and Health are continuously disturbed with the smell and sound coming from the portable units

SICK BUILDING SYNDROME– Most dust and dirt are trapped within the building with no escape EXCEPT through our LUNGS.

SECURITY – Cleaners have access to almost all areas and are often cleaning when there is no one around to supervise or monitor.

LOW PRODUCTIVITY

OUR FEATURES... ...YOUR BENEFITS!

Security

With less noise and smell, the cleaner don't have to come in during odd hours to vacuum the work place, thereby creating less security issues

Powerful Vacuum

With more power to achieve better effective cleaning

Silent

Even though it is more powerful than standard portable vacuums, cleaning is more silent as the motor noise is confined at the plantroom.

Thus, cleaning can be done during office hours without disturbing the workers.

OUR FEATURES... ...YOUR BENEFITS!

Green Building Index

Add a valuable point for innovation and making the building a more sustainable and healthy for occupants.

Higher Employee's Productivity

Thorough cleaning is now possible as all dust and dirt extracted stays out of the office with low absenteeism and sickness

Cleaning Anywhere, Anytime

With the carefully designed vacuum inlets located everywhere, the cleaners needs only carry the hose and accessories for use.

Our commitment to you :

- Professional Designed Systems
- Smooth Project Implementation
 - Reliable & Trusted Equipment
- Experienced & Responsible Staff
